Alumni Feedback Report

The Alumni Survey is designed to give graduates an opportunity to reflect upon their years at college after graduation. This information is used to improve the college experience for future students by identifying strengths in our programs as well as areas that need further development. The survey includes issues relating to satisfaction regarding:

- The quality of teaching learning and commitment of teachers at St. Bede's College
- Campus Infrastructure
- Quality of teacher-student relationship
- Contribution of college in developing your interpersonal and social skills
- Quality of extra-curricular activities
- Alumni involvement/ association
- Overall rating of the college
- Did the college improve your career prospects?
- Do you feel proud to be associated with St. Bede's as an Alumni?

During the session 2020-21, St. Bede's college conducted an Online survey of Alumni feedback to assess their perceptions of relevant aspects of their college experiences and to explore Alumni activity interests. The Alumni, eligible to participate were those who had graduated after three years of their degree course. They were asked the above nine pointers. Although this is not a generalizable sample size, results are indicative of interested Alumni who wish to provide feedback to the college. The survey is offered electronically through alinkon the website. The graph for the first pointer shows that the quality of teaching and learning and commitment is high, which is a key strength towards student centric approach where the student is given priority over everything else.

The second pointer- campus infrastructure too is considerably satisfactory given the hilly terrain in which the college is located. Cleanliness and greens around the campus are its hallmark.

Third, large percent of crossed-out students feel that there is a strong rapport between the students and the teachers who are easily approachable. This is very re-assuring for students who need constant guidance and encouragement.

Fourth, this field once again has been given a strong 'thumbs-up', as a majority feel that studying at St. Bede's has added to their confidence and spoken skills, hence improving their social skills.

Fifth, the quality of extra-curricular activities, as pointed out has a scope for improvement in this age of ICT and digital tools.

Sixth, this is rated as good, obviously being ruled by their love for their Alma Mater.

Seventh, the overall rating of the institution is no doubt high with the former students placed very well in their professional and personal life.

Eight, the Alumni do give high credit to the college for being a 'springboard' in their professional careers. Numerous Ex-Bedeians are highly placed in All India Services/ business entrepreneurship/ Banking services and as Educators.

Lastly, all the Alumni whole heartedly agree that they are very proud to be associated with St. Bede's as an Alumni.

The grey areas that can definitely be worked upon are extra-curricular activities and the EBA (Ex-Bedeian Association) which can be enlarged to encompass the voluntary services/counselling/career guidance of the Alumni for the benefit of the present students.
