ALUMNI FEEDBACK AND ACTION TAKEN REPORT 2017-2018

The Alumni survey is a valuable assessment conducted by St. Bede's College graduates to reflect upon their years at the college and provide feedback. The purpose of the survey is to improve the college experience for future students by identifying strengths in the programs and areas that require further development. The survey covers various aspects of satisfaction, including:

- **Quality of Teaching and Learning:** The students find the quality of teaching and learning at St. Bede's College satisfactory. They appreciate the commitment and dedication of the teachers in delivering education.
- **Campus Infrastructure:** The survey suggests that improvements are needed.
Action Taken: The college administration acknowledges that the overall infrastructure of St. Bede's College is very good. However, they have recognized the need for updating the IT infrastructure. As a result, they have taken the initiative to assess the current state of the IT infrastructure to identify specific areas that require upgrading.
- **Quality of Teacher-Student Relationship:** Students report positive relationships with their teachers, indicating a healthy and supportive learning environment.

- **Contribution to Developing Interpersonal and Social Skills:** Students acknowledge that St. Bede's College has played a significant role in developing their soft, cognitive, and social skills. However, the survey suggests the need for additional skill-based courses to further enhance students' employability.

Action Taken: The college has introduced new skill-based courses aligned with market demands, focusing on areas that can enhance students' career prospects and provide them with relevant skills for the job market.
- **Quality of Extra-Curricular Activities:** Students appreciate the opportunities for participation in extra-curricular activities. However, the survey highlights the potential for increasing community outreach activities to familiarize students with social issues and encourage social responsibility.

Action Taken: The college has expanded its community outreach programs, including collaborations with local NGOs and organizing volunteering opportunities for students. This allows students to engage with social problems, develop empathy, and contribute positively to society.
- **Alumni Involvement/Association:** Students emphasize the need for a robust alumni association that ensures continued involvement with the college.

Action Taken: To foster a strong connection with alumni, the College have taken the initiative to form groups comprising graduates from different batches. These alumni groups serve as a platform for maintaining ongoing communication and engagement with former students.
- **Overall Rating of the College:** The students provide an overall positive rating, indicating their satisfaction with St. Bede's College in various aspects.
- **Development in Career Prospects:** The survey indicates that the college has contributed to the development of students' career prospects. However, there is potential for further improvement, particularly through enhanced skill-based courses and networking opportunities.

Action Taken: The college has strengthened its career services department, providing career counseling, internships, and job placement assistance.
- **Feeling of Pride as an Alumni:** The students express a strong sense of pride in being associated with St. Bede's College as alumni. This sentiment signifies a positive and lasting connection with their alma mater.
