CampusCare @ Software' Service Level Assistance'

Dear Sister,
Greetings!

CampusCare is 13 years old and serving about 800 + clients pan India and abroad. We acknowledge your association. We would like to take this opportunity to thank you for giving us strength and capability in delivering quality services to all our clients. The SLA renewal is due and without your support our sustained operations cannot continue.

Please read through the introduction and our terms of services for uninterrupted technical support to your institution.

SLA Introduction – Information.

Software Development has many phases. These phases include Requirements Engineering, Architecting, Design, Implementation, Testing, Software Deployment, and Maintenance. Maintenance is the last stage of the software life cycle. After the product has been released, the maintenance phase keeps the software up to date with environment changes and changing user requirements. The earlier phases should be done so that the product is easily maintainable. Similarly, the implementation phase should create code that can be easily read, understood, and changed. Maintenance can only happen efficiently if the earlier phases are done properly.

There are four major problems that can slow down the maintenance process: unstructured code, maintenance programmers having insufficient knowledge of the system, documentation being absent, out of date, or at best insufficient, and software maintenance having a bad image. The success of the maintenance phase relies on these problems being fixed earlier in the life cycle. We have done our best as per the industry standards to support our clients in future and that is the success mantra of our company. IT services are not tangible but it is purely an association with concept and knowledge.

Please note: It is said that "ERP implementation is a journey not a destination"

Subject: Proposal for CAMPUS AUTOMATION SOFTWARE

Respected Madam,

This is with reference to our visit to your college campus sometime back to demonstrate our campus automation 'Campus Whizz' and telephonic discussion held with you yesterday. Please find attached herewith our proposal for the software solution as per Annexure - A, Annexure - B and Annexure - C.

This is an integrated and comprehensive solution with different modules. Following modules will be implemented at your college as discussed in meeting after demonstration of software.

A. Campus Management Modules

1. Student Fee Management
2. Library Management Module
3. Hostel Management
4. Academic Module – Attendance and House Examination

B. CMS based Web portal and its Management integrated with Campus Software

C. Online Admission Application Interface and other customized features duly integrated with Software

All users of the system will be allocated passwords for carrying out their respective activities on computer. Server and various computers and peripherals with operating systems, RDBMS system and other system software along with networking will be in your scope. Data entry will not be in our scope. You will provide manpower with minimum one IT resource to undergo requisite training to be imparted by our personnel at your premises as per schedule provided by you. Our staff will train the people put by you to implement and operate the system.

Assuring you our best services, always

Regards,

Man Mohan Singh Banga

1. All payments shall be made by demand draft or at par DD/NEFT in favour of M/s Contemporary Software Services Private Limited payable at Chandigarh.
2. Taxes and levies will be as applicable at the time of billing.
3. Software will be licensed for unlimited number of users for a single campus. In case multiple institutions are housed in a single campus and different set of people handle management of each institution then it will not be considered as a single campus. Separate copy of software will be required for each institution in such a case.
4. The vendor or its representative will not be responsible for problems arising out of other items such as computer hardware, networking, operating system or any other factor not under its direct control.
5. Customer will make its own arrangement for prevention of virus attacks.
6. The customer will follow vendor's recommendations and procure all necessary hardware, peripherals and other equipment as per the specifications laid down and accept any upgrade proposal if the equipment already procured is obsolete and outdated so as to ensure smooth functioning of the computerized system.
7. It will be necessary on part of the customer to obtain necessary permissions from relevant copy right owners to use their operating systems or other software. Vendor shall not be responsible for any violations and legal action arising out of such violations.
8. The vendor or its representatives will not be responsible for carrying out any data entry or data verifications work on behalf of the customer.
9. It shall be the responsibility of the customer to take appropriate care of the Campus Automation software and its data through regular backups. In no event Vendor shall be liable for any consequential, special, indirect or other similar damages whatsoever (including without limitations, damages for loss of business profits, business interruption, loss of business information or any other loss) arising out of mishandling/misuse or inability to use the software/loss or corruption of data.
10. The customer will take sufficient care to prevent piracy of Campus Automation Software. The customer will not allow access of the software to any unauthorized person(s) to prevent it from falling into improper hands. The customer at no time will make any attempt to duplicate, copy the software for use of this software at any other location other than the approved location or for the purpose of sale or profit or for any other purpose.
11. Campus Automation Software comes with 1 year warranty and the period of warranty begins from the date of Installation of software at customer's site or server provided for the purpose at any other location. During the period of warranty the vendor shall be responsible for the proper functioning of the Software only as per the documented features, which are subject to change without notice since it is continuous development process. During the period of warranty, the Vendor shall not be called upon to service the customer's problems originating out of computer or hardware failure, problems related to the operation system, power failure and virus attack related problems causing data corruption and problems originating out of lack of understanding of the system and improper usage of the software.
12. The Vendor undertakes to enter into an Annual Maintenance/Service Contract upon expiry of warranty period The AMC charges are subject to revision from time to time. The maintenance contract will come in to force immediately after expiry of the warranty period.

The screenshot shows the 'Find Book' interface in the Campus Whizz system. The user is logged in as 'bookRUCHI'. The interface includes a search bar, a 'Find Book' section with radio buttons for different media types (Book, Magazine, Journal, Photograph, Audio, Software/Video, Miscellaneous, GIFTEDBOOKS, Maps, BookBank, Rare), and an 'Enter Book Acc No' field with 'Show' and 'Cancel' buttons. A sidebar on the left contains navigation options like Masters, Search, On Acc. No., Books, View All Books, Transactions, Verification, and Reports & Queries. The footer of the application displays the version number (2.03) and the provider (Contemporary Software).

E-Transactions

The screenshot displays the 'E-Transactions' section of the Campus Whizz system. It features a table with columns for Date, Library Name, Acc No, Title, Emp Id, Lib ID, Issued To, Issued On, Due On, and Issued By. The table lists various book transactions from 30/09/2022 to 23/09/2022. A sidebar on the left provides navigation for Transactions, including Book Issue (Staff/Student), Book Return (Staff/Student), Book Reserve (Students), Newspaper Attendance Receipt, Block Issue Student, and Un-Block Issue Student. The footer includes a warning about the academic year selection and the version number (2.03).

European hegemony & inter- imperialistic rivalries, conflicts within Europe

What is imperialism?

- ↳ the practice of establishing its rule and dominance over the economic and political life of the people outside its pale is called imperialism.
- may be done through armed conquest or setting up colonies.
- some countries were exploited even after establishing their sovereignty political dominance over them. Newly independent but underdeveloped countries are still exploited economically.
- ↳ The process of dominance is known as neo colonialism.
- ↳ The attempt of mercantile countries to establish their sovereignty over agricultural countries is called imperialism.
- it is virtually similar to militarism.
- The chief characteristics of imperialistic rule are:
the foreign rulers are in minority and try to impose the superiority of their race and culture on the majority of the natives who are backward or suffer from an inferiority complex and have a non-industrial economy.
