A WEBINAR ON 'IMAGE, COMMUNICATION AND ETIQUETTE'

On 4th September 2020 a webinar on the topic 'Image, Communication and Etiquette' was organized in collaboration with Amity University Delhi, aimed at providing insights on social manners to the attendees. The session was conducted by Dr. Eeshani Saraswat, Deputy Director at Amity Finishing School, Delhi.

Objective: The main objective was to impart an introductory training session to the final year girls giving them an interactive session on image building, communication skills and etiquette.

The webinar comprised three sessions, each with a duration of 1.5 hours.

Session one had the resource person discuss different types of non-verbal communication and its impact on the audience and how to use it convey the intended message. The emphasis was on the necessity of appropriate body language, facial expressions, and communication through an effective tone of voice.

The second session had the resource person laying emphasis on the relevance of being courteous, respectful, and attentive in professional and social settings. Professional and social practices such as etiquette including dining etiquette, telephone etiquette were deliberated upon.

In the final session the attendees were provided with the skill of deciding the right attire for different occasions and the accompanying accessories which ought to be a part of one's wardrobe. Professionalism in maintaining personal hygiene, dressing appropriately which needs wardrobe management to portray the most appropriate image.

Outcomes: Post webinar, the students opted for registering themselves for a certified online program on Business Etiquette training for a month where the students underwent training in business networking skills, appropriate choice of workplace attire and professional approach in any given workplace

WEBINAR ON "CAREER OPPORTUNITIES IN TALLY AND BENEFITS OF TALLY CERTIFICATION"

The Department of Commerce & Management and the Department of Computer Science jointly organized a webinar on September 11, 2020, in collaboration with Tally Education Private Ltd, Bengaluru and Sai Digitech Professional Institute, Shimla.

Objective-The objective of the webinar was to make students of B.Com, BBA, and BCA aware of various career opportunities available after obtaining a certificate in Tally Course.

Mr. Kaushal explained how Tally Software is widely used by businesses across various industries and helps in managing financial data. He explained that there are many career opportunities available for the students who have knowledge about Tally software. He emphasised Tally certification adds value to the student's resume and give them edge in the job market as it is recognized by all leading companies in the economy.

The session also included a Q&A session where students had the opportunity to ask questions related to Tally and available career opportunities after Tally certification. Mr. Kaushal answered all the queries in detail and provided valuable insights into the subject.

Outcome-The webinar provided a comprehensive understanding of the various career opportunities available after learning Tally.

WEBINAR ON "EMOTIONAL INTELLIGENCE AND LEADERSHIP SKILLS"

The Department of Commerce and Management in collaboration with NEST (Nurturing their Skills, Talent and Education), organized a webinar on the topic "Emotional Intelligence and Leadership Skills" for Commerce, Management and Psychology students on 23rd October, 2020.

Objective: The objective of the webinar was to make students understand how leadership skills depend on emotional intelligence and it is important to maintain emotional balance to achieve goals in life.

The resource person for the webinar was Dr. Shama Hussain, Chairman, Muscat Head, National Institute of Skills Training. Dr. Hussain after introducing the concept of emotional intelligence and its importance in leadership, explained how emotional intelligence helps in controlling emotions thereby helping in making better decisions and strong relations in life. Discussing the five components of emotional intelligence, namely self-awareness, self-regulation, motivation, empathy, and social skills, she explained how these are interlinked.

Dr. Hussain highlighted the role of emotional intelligence in effective communication.

Outcome: The resource person provided practical tips and strategies for managing emotions, which the students found to be very useful.

A WEBINAR ON THE CAREER AWARENESS “CAREER IS BY CHOICE, NOT BY CHANCE”

On October 28th, 2020, the Department of Commerce and Management organized a webinar titled “CAREER IS BY CHOICE, NOT BY CHANCE” for the students of B.Com and BBA.

Objective- The main objective of the webinar was to inform the students about various career prospects after graduation.

The resource person for the day was Mr. Anupam Vohra, founder of NEST (Nurturing their Skills, Talent and Education). Mr. Vohra discussed various career options available in the current market and emphasized that one should consider his/her interests and aptitude before making career choices. Mr. Vohra discussed the eligibility criteria, minimum qualifications and procedures to apply for various jobs. He highlighted that the knowledge about soft skills such as communication, teamwork, and problem-solving abilities, help in improving the job prospects.

The session was interactive, and students were encouraged to ask questions to clarify their doubts.

Outcome- The webinar helped the students to broaden their horizons and explore different career paths.

<p>7. DETAILED DESCRIPTION OF THE EVENT</p>	<p>From 15th to 20th February 2021, Physics department of St. Bede's College Shimla conducted a six-day online workshop called 'Spreadsheets: A Tool for Developing Mathematical & Computational Skills in UG students'. The workshop was facilitated by three resource persons: Prof. P.K. Ahluwalia, retired Professor of Physics from Himachal Pradesh University, Dr. Sarmistha Saha, retired Associate Professor from the Department of Physics at Maharani Lakshmi Ammanni College for Women, Bangalore, and Dr. Sapna Sharma, Associate Professor from the Department of Physics at St. Bede's College Shimla. The workshop was organised as a structured class with exposure to problems drawn from physics, chemistry and mathematics in the form of assignments, quizzes and discussion board. Students were also sensitized towards visualisation of scientific data, computing complex problems by developing a schemata for implementing it on spreadsheets.</p> <p>Day1: On the first day of the workshop, the keynote speaker, Prof. P.K. Ahluwalia, delivered an enlightening talk entitled "Developing Mathematical and Computational Thinking of Science Students as per the New Education Policy." Prof. Ahluwalia began by discussing the importance of mathematical and computational thinking in the current education landscape. He highlighted how these skills are essential for students pursuing science subjects, as they form the backbone of many scientific disciplines. He also emphasized that with the recent changes in education policy, it is crucial to re-examine the ways in which we teach these skills to students. He then proceeded to outline some key strategies for developing mathematical and computational thinking in science students. He stressed the need to integrate these skills into the curriculum, rather than treating them as separate subjects. He also discussed the importance of creating an environment that fosters curiosity and encourages students to ask questions, experiment and explore. Then he shifted his talk on the topic <i>Spreadsheet: Overview of a Killer Application.</i></p>

	<p>He highlighted how spreadsheets is a fundamental tool in today's workplace, with applications ranging from budgeting and financial analysis to project management and data analysis and have evolved into sophisticated software packages that can handle complex calculations, data manipulation, and visualizations such as charts and graphs, which can be used to present data in a meaningful way.</p> <p>Day 2: On the second day of the workshop, Prof. P.K. Ahluwalia delivered a talk titled "<i>Beyond a Simple Worksheet: Macros, User-Defined Functions, and Subroutines</i>". He highlighted the various powerful tools available in Microsoft Excel that can help automate and streamline workflows beyond the basic functions of a worksheet. By using these tools, productivity can be increased, and time can be saved. During the talk, Prof. Ahluwalia demonstrated how to create a macro using the Macro Recorder tool in Excel. This tool records the actions performed and generates a Visual Basic for Applications (VBA) code that can be replayed later. The code can also be edited to customize the macro to suit specific needs. Additionally, he explained the process of creating a Subroutine by writing VBA code. This enables users to create more complex and customized functions to perform specific tasks. "An Undergraduate Computational Physics Course: Implementation Using Spreadsheets".</p> <p>Day3: Dr. Sapna Sharma discussed the implementation of an undergraduate computational physics course using spreadsheets. She emphasized the advantages of using spreadsheets in teaching fundamental concepts of computational physics, such as ease of use, versatility, and a familiar interface. By taking a hands-on approach to learning, students can gain a better understanding of the underlying physics and the practical application of numerical methods and data analysis. The topics discussed were:</p> <ul style="list-style-type: none"> • Spreadsheet & its Features • Data entry into a spreadsheet.

- Performing basic mathematical tasks in a spreadsheet.
- Insert charts/graphs in a spreadsheet.
- Exercises in spreadsheet.

Day 4:

On Day 4, Dr. Sapna Sharma gave a presentation on the importance of error analysis in laboratory work and how spreadsheets can facilitate this task. The topic was *"Spreadsheet as a tool Kit for Science Laboratories: Data Handling and Error Analysis"*. During her talk, Dr. Sharma covered a range of topics related to error analysis, including types of errors, ways of expressing errors, propagation of errors, absolute and fractional uncertainties, and combining errors in formulas. She also provided practical examples of how spreadsheets can be used to perform error analysis, such as assigning values to variables and evaluating the uncertainty of results.

Day 5

On the fifth day of the event, Dr. Sarmishtha Sahu gave a presentation on the topic *"Trouble Shooter of Physics: Classical and Quantum Oscillator"*. During her talk, she emphasized the versatility of spreadsheets as a tool for modeling, analyzing, and visualizing Classical and Quantum Oscillator systems. By utilizing spreadsheets, researchers and professionals in the field can enhance their understanding of these systems and make more precise predictions regarding their behavior. Dr. Sahu's talk shed light on the potential of utilizing spreadsheets in Physics research and provided insights into how this tool can aid in problem-solving.

Day 6

On the sixth day of the event, Dr. Sarmishtha Sahu presented an intriguing topic titled *"Hitting the Bull's Eye: Let's Calculate Pi (π) Using a Monte Carlo Approach"*. In her presentation, she discussed a unique and engaging method of calculating the value of Pi (π) using statistical analysis through random sampling, also known as the Monte Carlo approach. She provided step-by-step instructions on how to use random sampling to estimate the value of Pi (π) through a Monte Carlo

		<p>approach in a spreadsheet. Additionally, Dr. Sahu emphasized that the accuracy of the estimate of π increases with the number of random points used in the calculation. Hence, individuals can achieve a more precise value of π by incorporating a greater number of points in their statistical analysis. Overall, Dr. Sahu's presentation provided a unique and interactive approach to learning about the value of π through statistical analysis.</p>
8.	OUTCOMES	<ul style="list-style-type: none"> • Students learnt computational skills by using spreadsheets as a tool for solving complex problems. They learnt to create and use macros, automate repetitive tasks, and apply conditional formatting to manipulate data. They also learnt to analyze and interpret data using tools such as pivot tables and data validation. • Students learnt how to analyze data using spreadsheets, including sorting, filtering, and data validation techniques. They also learnt how to create visually appealing charts and graphs to represent data in a meaningful and impactful way. <p>The event helped in developing the problem-solving and critical thinking skills in students by using spreadsheets to analyze and interpret data, and make informed decisions based on the results to solve real-world problems.</p>

WEBINAR ON "DIFFERENT COURSES TO BE PURSUED AFTER UG

The Department of Commerce and Management organized a webinar on the topic "Different Courses to be pursued after UG" on March 18th, 2021. The resource person for the webinar was Mr. Ramanpreet Singh, Director at PIBM, Pune.

Objective- The purpose of the webinar was to enlighten the students about the courses that they can pursue after completing their undergraduate degree.

During the webinar, Mr. Singh talked about upcoming courses on finance and human resource development which students can choose after completing their undergraduate program. He explained the importance of postgraduation in these fields to enhance their skills thereby improving their career prospects. He also explained the eligibility criteria, duration and career prospects of different postgraduate courses in these fields.

The students actively participated in the session and asked questions related to the courses and career prospects.

Outcome- The webinar provided valuable information on future career options.

ONLINE SEMINAR ON CAREER OPTIONS AFTER GRADUATION

On March 31, 2021, an online seminar was conducted by Mr. Vinod Sharma, a faculty member at Christ (Deemed to be) University, Delhi NCR.

Objectives:

1. Exploring Career Paths: To assist students in discovering diverse career trajectories and industries relevant to their field of study.
2. Higher Education Insights: To offer insights into various postgraduate courses and their potential benefits.
3. Resume & Interview Skill Development: To impart essential skills for crafting impactful resumes and excelling in job interviews.
4. Industry Trends Awareness: To inform students about emerging industries and how they can align their career paths with these trends.

The seminar revolved around "Options after Graduation," shedding light on potential career paths following the completion of undergraduate studies. Mr. Sharma provided comprehensive insights into various career choices, ranging from becoming a Chartered Accountant (CA), Company Secretary (CS), or entering the Banking and CFA professions to pursuing opportunities in the UPSC and SSC. The session proved to be both interactive and informative, engaging the students effectively.

Outcomes: The seminar enabled students to gain insights into the myriad options available to them after obtaining their Graduation degree. Furthermore, students had the opportunity to ask questions and seek personalized advice from the resource person following the session.
