Session: 2023-2024

World River Day

Theme: "NANHE SNRAKSHAK"

Date: 25 September 2023

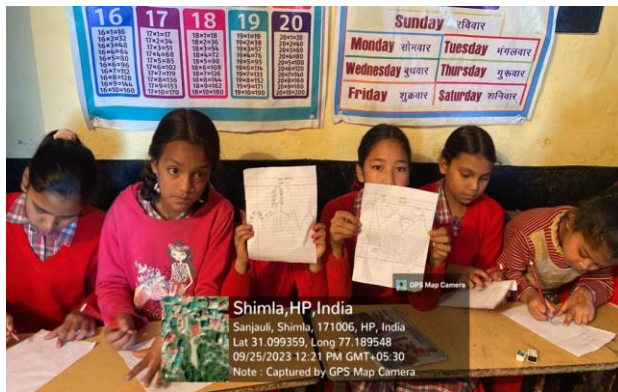

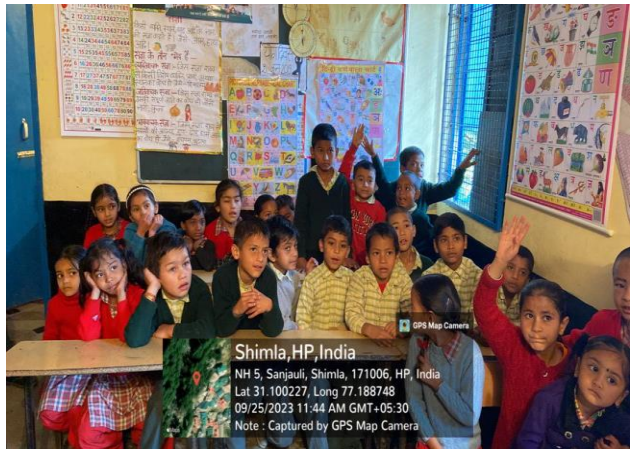

Objective: The objective of the Activity was to interact with the school students and share with them the knowledge regarding river water pollution and its harmful impacts.

An awareness program was organized by the Environment Awareness Cell under the theme of *NANHE SNRAKSHAK* on the occasion of **World River's Day** that was on 25 September 2023. The students and convener of Environment Cell made a nearby visit to a Government Primary School Sanjauli, Shimla and made the students aware about river and environment pollution through various activities. A power point presentation was shown to the students regarding river pollution and its impacts. The program started at 12:00 noon and it ended at 01:00 p.m. The program started with a short discussion where the members of the cell made them a little aware about the River Day and how the rivers are being polluted and what measures should be taken to prevent it. And after showing them the presentation a short quiz was held where the cell members asked very simple questions and the students participated enthusiastically. The students were given small rewards for their active participation.

After the quiz ended the society members of the cell performed a short skit where they showed how people pollute the river or the surroundings and what should be done to prevent it. So it was a short awareness spread through a skit.

After the skit a drawing competition was held where the students were asked to draw something related to the environment and stationary was provided to them. The kids participated enthusiastically and drew a lot of good drawings. Coming to the end of the program some videos regarding the topic were shown to them which they watched with utmost curiosity. Lastly some goodies in form of chocolates were given to the students. Overall the event was successful and very informative for the students of the school.

Subject: National Students Paryavaran Competition (NSPC)

Respected Madam/Sir,

As you are aware, Climate control is the top agenda under the leadership of our Hon'ble Prime Minister. It is now a well-established fact worldwide that concerted efforts are required for climate control to avoid further degeneration which may result in irreversible consequences. The Ministry of Environment, Forest & Climate Change has organized National Students Paryavaran Competition (NSPC) under the aegis of Paryavaran Samrakshan Gatvithi, which is scheduled from 01st July, 2023 to 21st August, 2023. The objective of this program is to succeed in creating awareness amongst students to comprehend in depth the complexity of the looming dangers of uncontrolled climate devastation.

The Higher Education Institutions are requested to disseminate information about National Students Paryavaran Competition (NSPC) and request students for maximum participation in the Competition scheduled from 01st July, 2023 to 21st August, 2023. The participation is free for all students. There is no commercial activity involved in this awareness campaign. A copy of the detailed program of the Competition is enclosed.

With kind regards,

Yours sincerely,

(Manish Joshi)

St. Bede's College Shimla, Himachal Pradesh, took part in various activities mentioned under the Government of India initiative, "National Students Paryavaran Competition, Ek Ped Desh Ke Naam". The aim of the initiative was to sensitize the students regarding contemporary environmental problems and their remedial measures. Keeping in mind this sensitive issue the students of the college took part in various activities such as:

- The Quiz Competition: over twenty students registered themselves on the website (<https://ecomitram.app/nspc23>) and went through the quiz. The questions framed in the quiz involved questions like the renewable resources, carbon sinks, greenhouse gases, importance of rainwater harvesting, solid waste management etc. all these were important issues related to daily life and the students must have benefited out of this knowledge.

E-Waste Collection Drive

Date: 16th to 21st October, 2023

Objective: the objective of the activity was to create awareness among the students regarding proper disposal of electronic waste and how important it is for the environment.

Electronic waste is one of the major types of environmental pollutants. Various electronic items like wires, phone chargers, TVs, electric kettles, headphones, batteries, mobile phones has to be managed separately. But most of the times they are thrown out with other house hold garbage and this creates a problem. Thus this year the State Pollution Control Board organized an e-waste cum awareness drive from 16th to 21st October, 2023 in order to encourage students and the common people regarding scientific management of e-waste. Thus to contribute our part to this noble cause the Environment cell of St. Bede's College, Shimla organized an E- Waste Collection Drive from 14th -18th October, 2023. A card board box was placed in the college campus were students put in various old electronic items like old phones, wires, headphones, tabs, kettles etc. and any other electronic and electric device that is no longer in use. Then on 18th October 2023, the collated E-Waste was deposited with the e-waste van at Chotta Shimla. The drive succeeded in spreading the message of proper management of electronic waste among the students.

NUKKAD NATAK: TRANSITION TO SUSTAINABLE LIVING

Date: November 22, 2023

Objective: To promote sustainable living habits among the general public.

On November 22, 2023, the Environment Cell of St. Bede's College organized a Nukkad Natak on the theme, '**TRANSITION TO SUSTAINABLE LIVING**' to raise the awareness among the people about the importance of sustainability and its advantages to the future generations. The Nukkad Natak emphasized the concept of 3R's of Sustainable Development that is Reduce, Reuse and Recycle. Environment Protection is the need of the hour and this is only possible when everyone follows a lifestyle that is eco-friendly, a life style that reduces its ecological footprint to minimum. The students through the n nukkad natak tried to spread the message of environment protection through proper treatment of the house hold garbage, through use of public transport and by saving other natural resources. We have one earth, one future and it's our responsibility to save it.
