

Research Development Cell

Dated: 21.09.2023

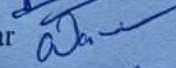

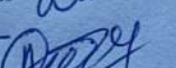

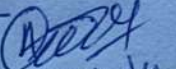

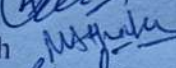

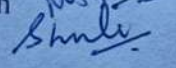

Minutes of Meeting

A meeting of members of Research Development Cell was held on 21.09.2023 at 11:00 A.M. in the Principal office. Following agenda items were discussed.

- Overview of the Research Development Cell's collaboration with Post Graduate Courses.
- Discussion on the organization of research and statistical classes for PG students.

The meeting commenced with a brief overview of the collaboration between the Research Development Cell of the college and the Post Graduate Courses (Science, English & Commerce). Dr. Ashwani Kumar, Assistant Professor, Department of Physical Education highlighted that the primary focus of this collaboration is to enhance research aptitude among PG students and facilitate their prosperity in higher education. He shared the details of the statistical classes planned to be conducted weekly for PG students to provide a foundational understanding of research methodology and statistics, essential for undertaking and analyzing research projects effectively.

The members acknowledged and agreed that these classes will play a crucial role in nurturing critical thinking skills and preparing students for academic and professional pursuits and ask Dr. Ashwani Kumar to continue with them.
