

INSTITUTIONAL DISTINCTIVENESS:

“FOSTERING ENVIRONMENTAL STEWARDSHIP”

St. Bede's College exemplifies its commitment to sustainability through a wide range of impactful environmental initiatives that engage students, staff, and the surrounding community. The institution consistently promotes ecological responsibility through activities such as tree plantation drives, cleanliness campaigns, biodiversity awareness programs, and hands-on recycling workshops. Plantation events under *Ek Ped Maa Ke Naam* and the efforts of the Environment Awareness Cell in planting Deodar and Horse Chestnut trees reflect the college's dedication to enhancing green cover and restoring natural balance. Large-scale programs like the Swachhata Hi Seva Campaign, mega cleanliness drives, and awareness rallies cultivate a culture of hygiene, proper waste management, and civic duty among students. Visits to the Himalayan Forest Research Institute and biodiversity conservation outreach in schools strengthen scientific understanding and inspire environmental stewardship. The college also emphasizes practical sustainability through compost sales, recycling awareness programs, paper recycling activities, and creative competitions focused on conservation themes. These efforts collectively foster a deep sense of ecological sensitivity, empowering students to adopt sustainable practices in their daily lives. Through its sustained environmental actions and community-centered approach, St. Bede's College demonstrates a distinctive ethos rooted in environmental protection, ecological literacy, and long-term sustainable development.
