# St. Bede's College, Shimla

## PROGRAM OUTCOMES

## B.A.

St. Bede's College offers three-year undergraduate degree program with a diverse range of disciplines such as English, Geography, Hindi, Economics, History, Music, Nutrition and Health Education, Psychology, Physical Education, Political Science, and Computer Applications. The following program outcomes reflect the broad educational goals of BA degree.

**Program Outcome 1 (PO1): Knowledge and Understanding**

Students will understand the fundamental concepts, theories, and principles in their chosen fields. They will use this knowledge to tackle complex problems in their respective disciplines. They will be able to make well-informed decisions after evaluating and synthesizing information from various sources.

**Program Outcome 2 (PO2): Effective Communication**

Students will be able to express themselves clearly in both writing and speaking. They will use the right methods and tools to share their views and ideas clearly. Additionally, they will also collaborate and work together with their peers effectively.

**Program Outcome 3 (PO3): Critical Thinking and Problem Solving**

Students will enhance their critical thinking skills, enabling them to analyse complex problems, assess evidence, and make well-founded decisions. They will apply critical thinking to address real-world challenges within their discipline. They will demonstrate creativity and innovation in problem-solving.

**Program Outcome 4 (PO4): Ethical and Social Responsibility**

Students will learn about ethical and social responsibilities by applying these to their academic work. They will become awareness of social, cultural, and environmental issues and will actively engage in sustainable practices in their communities, bringing positive social change.

**Program Outcome 5 (PO5): Global and Cultural Awareness**

Students will possess cultural competence and global awareness, appreciating diverse perspectives, cultures, and histories. They will recognize how different global problems are linked and will show respect for various cultures while encouraging inclusivity.

**Program Outcome 6 (PO6): Lifelong Learning and Adaptability**

Students will always look for opportunities to expand their knowledge and acquire new skills in their chosen discipline and beyond. They will show dedication to lifelong learning that will empower them to succeed in a competitive world.
